Table 1: People in the Group

Name	ID
Callum Gooding	4298750
Omar Aziz	4302652
Antonis Kourris	4306094
Alexandros Araouzos	4306695
Christiana Efstratiou	4301624

1 Shared Part

This could be the Shared Part of the document. It is designed to be written by all members of the team.

Each member should ideally write their details in the table of contributors in the Shared Part of the document.

1.1 Comments from the second student

This is the first subsection. Do not forget to include the best parts about the module as well as what you did not like about Max Wilson during the term.

1.2 Comments from the third student

This is the first subsection. Do not forget to include the best parts about the module as well as what you did not like about Max Wilson during the term.

1.3 Comments from the forth student

This is the first subsection. Do not forget to include the best parts about the module as well as what you did not like about Max Wilson during the term.

1.4 Comments from the fifth student

This is the first subsection. Do not forget to include the best parts about the module as well as what you did not like about Max Wilson during the term.

1.5 Table of Contributors

If you want to move a table around you will need to put some parameters in square brackets, if you want it exactly where it is positioned in the text editor just uncomment the [h] below, just after begintable

This is the table of contributors (Table 1):

2 First Member

This is the section dedicated to one of the team members, and it should be written individually. It can include a range of things; first subsection is a space for you to point out the strengths and weaknesses of the module, including complaints about the module coordinator Max Wilson. The second section should have a selfie image with Max! The last part of it is the most important one. You will need to write a paragraph about what you have learned in this module. You can write it in **Bold** if you want or you can use other fonts.

Please do not forget:

- First paragraph should have your comments about the module
- Second one, a selfie img with Max
- Last one, what you learned in this module.

2.1 Comments about the module

This is the first subsection. Do not forget to include the best parts about the module as well as what you did not like about Max Wilson during the term.

2.2 Selfie with Max

To include an image, you will need to remove the comments from the code below, place an image in the main folder, and do not forget to put the name of the image instead of `ImgName`.

You can then use the label of the figure to reference it later with the command `\ref`. you can comment out the next line to see an example of how it works.

My selfie with Max is in Figure 5.

2.3 What I have learned in this module

In FSE I've learnt how to work in a group and delegate tasks to other team members.

Figure 1: Selfie with Max

3 Second Member

This is the section dedicated to one of the team members, and it should be written individually . It can include a range of things; first subsection is a space for you to point out the strengths and weaknesses of the module, including complaints about the module coordinator Max Wilson. The second section should have a selfie image with Max! The last part of it is the most important one. You will need to write a paragraph about what you have learned in this module. You can write it in **Bold** if you want or you can use other fonts.

Please do not forget:

- First paragraph should have your comments about the module
- Second one, a selfie img with Max
- Last one, what you learned in this module.

3.1 Comments about the module

This module has helped open up more to unfamiliar scenarios, working in a group gave me the opportunity to voice my own thoughts and opinions on matters of the subject, whether it was for a task or for the lesson in general. I don't think there's anything wrong with the subject, it's quite interesting, and the professor teaching it is great at what he does, so no complaints there.

3.2 Selfie with Max

To include an image, you will need to remove the comments from the code below, place an image in the main folder, and do not forget to put the name of the image instead of `ImgName`.

You can then use the label of the figure to reference it later with the command `\ref`. you can comment out the next line to see an example of how it works.

3.3 What I have learned in this module

I have learned to work as part of a team, where I've managed to work under pressure and in a time limit.

Figure 2: Selfie with Max

4 Third Member

This is the section dedicated to one of the team members, and it should be written individually . It can include a range of things; first subsection is a space for you to point out the strengths and weaknesses of the module, including complaints about the module coordinator Max Wilson. The second section should have a selfie image with Max! The last part of it is the most important one. You will need to write a paragraph about what you have learned in this module. You can write it in **Bold** if you want or you can use other fonts.

4.1 Comments about the module

My strengths in this module are the concept of teamwork and achieving good structure when it comes to constructing graphs and figures, while working in a group while my weakness is that it sometimes takes me a while to figure out how to do I want.

4.2 Selfie with Max

Figure 3: Selfie with Max

4.3 What I have learned in this module

I have learned a lot about how a system should be designed, implemented and tested and how important that is.

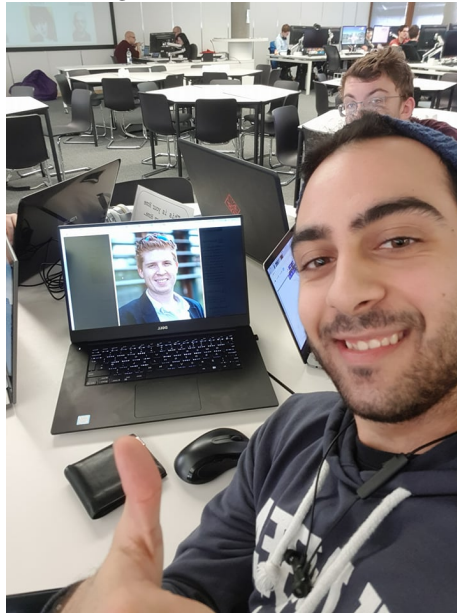

5 Fourth Member

5.1 Comments about the module

This module has been interesting so far, possibly because of the coordinator, Max Wilson. Though, the feedback from non assessed labs could have been better, i.e. receive a mark for them would really help.

5.2 Selfie with Max

Figure 4: Selfie with Max

5.3 What I have learned in this module

I have learned how to work in a group and what it means to be dependent on other people to carry out a task **together**.

6 Fifth Member

This is the section dedicated to one of the team members, and it should be written individually . It can include a range of things; first subsection is a space for you to point out the strengths and weaknesses of the module, including complaints about the module coordinator Max Wilson. The second section should have a selfie image with Max! The last part of it is the most important one. You will need to write a paragraph about what you have learned in this module. You can write it in **Bold** if you want or you can use other fonts.

Please do not forget:

- First paragraph should have your comments about the module
- Second one, a selfie img with Max
- Last one, what you learned in this module.

6.1 Comments about the module

The module was taught well, it gave a good basic understanding of what working in a team is like and the processes a piece of software goes through before being submitted/sold.

6.2 Selfie with Max

My selfie with Max is in Figure 5.

6.3 What I have learned in this module

How to work in a group on 0 sleep without killing my teammates obviously

Figure 5: Selfie with Max
